

Endpoint Operations Done! Efficiently.

Ringier

a&f systems

We would like to acknowledge our partner, **A&F Systems**, for their collaboration on this case study.

ABOUT RINGIER AG

Largest international operating media company in Switzerland

- **Located:** Zurich, Switzerland
- **Industry:** Media & Newspaper
- **Number of Devices:** 2,000+
- **Active Operating Systems:** macOS  iOS

“FileWave saves time by allowing us to make changes at the file level – modify, test and deploy... and it's easy. With a two-day training, we're able to work with FileWave on a high level.”

Martin Werren

Head of Project and Governance Ringier AG

CHALLENGES BEFORE FILEWAVE

DEPLOYMENT TO MACS

Ringier AG had deployment software for their Windows devices, but not for the Mac devices in their business.

SOFTWARE DEPLOYMENT

Due to the diverse nature of the company, they needed to deploy and install 60+ types of software, some of them very complex like the Adobe Creative Suite.

DYNAMIC ENVIRONMENT

As an international media company, Ringier's IT environment is constantly changing, requiring a customized and flexible management.

“Other software does not allow us to keep pace with the speed of changes and modifications. Customizations have to be done with another software and creating packages is complex.”

Martin Werren

HOW FILEWAVE HELPED

EFFICIENT DEPLOYMENTS

Implementing FileWave to manage their software deployment and installation of more than 60 types of software on their 500 Macs was a smooth and simple process.

CROSS-PLATFORM TOOL

While originally searching for a macOS deployment tool, the long-term goal was to manage all devices from one platform.

QUICK TO LEARN

After just a two-day training, Martin and his team were able to work with FileWave at a high level.

“FileWave works in the background – users aren't blocked, so they aren't interrupted and they stay productive.”

Martin Werren

THE RESULTS

- ✓ Ringier sees **time savings of 50%** when installing complicated software like the Adobe Creative Suite.
- ✓ After successfully implementing FileWave as a deployment tool for 500 MacBooks, Ringier now manages **macOS, Windows and iOS** devices through FileWave. This **reduces the amount of tools needed** to take care of their device fleet.
- ✓ Ringier regularly deploys a variety of software, for which they can rely on FileWave's **safety and flexibility**.

“We have a **dynamic, constantly changing environment** and FileWave works for us.”
Martin Werren
Head of Project and Governance Ringier AG

HOW WE GOT THERE

RESEARCH

Ringier searched for a deployment tool for their macOS devices.

1

EXPERIENCE

Ringier deployed more than 60 types of software on their 500 Macs and found the process to be smooth and simple.

3

CUSTOMER

After integrating the Macs with FileWave, Ringier was looking at enrolling their Windows and iOS devices.

5

2

DISCOVERY

Ringier looked into FileWave and found that it shares their dynamic vision of the future.

4

CONFIDENCE

Ringier was confident that FileWave was the right solution for their unique and evolving environment.

ONE TOOL FOR ALL DEVICES
